

MNRI® IPET NeuroStructural Reflex Integration

Dates: October 6-8, 2019

With Trina Deiss

Location: Orlando, FL

MNRI® IPET NeuroStructural Integration

The objective of this MNRI® IPET NeuroStructural Integration course is to provide an individualized training format which emphasizes direct hands-on training and in-depth knowledge of the MNRI® NeuroStructural Integration process, assessment and intervention strategies. To start the MNRI® Intensive Professional Educational Track (IPET) the participant is required to have the following minimum requirements:

- BA, BS or 2000 hours of training in an accredited wellness discipline
- Six (6) Semester hours of training in anatomy and physiology by the time the program is completed
- Signed the MNRI® Trainee Agreement or MNRI® Core Specialist Agreement
- Completion of the MNRI® Dynamic and Postural Reflex Integration course and at least one other MNRI® Course.
- Completion of the MNRI NeuroStructural course at least once before enrolling in the MNRI® IPET NeuroStructural Integration course

There are no exceptions to the above requirements. For any questions, please contact info@masgutovamethod.com

Course Objectives:

In this 3-day course (24 hours), attendees learn through course discussion and direct, hands-on supervised practice. Attendees will gain specific instruction on how to release tension of the Tendon Guard Reflex, relax the muscular tension in the whole body, activate the proprioceptive system and body structure links for optimizing self regulation, and activate receptors through deep touch and pressure in a clinical practicum situation.

The IPET NeuroStructural Integration Program is part of the larger MRNI Method. The program focuses on:

1. Motor development assessment with exams with course instructor
2. Interpreting the reflex pattern assessment with required demonstration of the specific steps the integration exercises.
3. Demonstration of the specific techniques to release protective responses (e.g., Tendon Guard) at a good to excellent rating.

Reflexes Addressed in this Course

Primary Motor Reflex Patterns

- Abdominal Perez
- Asymmetric Tonic Neck (ATNR)
- Bonding
- Moro Embrace
- Spinal Galant
- Spinal
- Trunk Extension

Additional Motor Reflexes & Reactions

- Abdominal
- Balancing Oculovestibular
- Breathing Rolling
- Centering Expanding
- Convergence-Divergence
- Core Tendon Guard
- Eyes Leveling Leveling
- Eyes Tracking
- Fear Paralysis
- Foot Tendon Guard
- Gravity
- Grounding
- Head Righting
- Head Tilting Forward
- Head Up-Righting
- Locomotion
- Oculo-kinetic
- Segmental
- Spine
- Spinning
- TMJ Leveling
- Vestibular

Prerequisites:Prerequisites: To start the MNRI® Intensive Professional Educational Track (IPET) the participant is required to have the following minimum requirements:

- BA, BS or 2000 hours of training in an accredited wellness discipline
- Six (6) Semester hours of training in anatomy and physiology by the time the program is completed
- Signed the MNRI® Trainee Agreement or MNRI® Core Specialist Agreement
- Completion of the MNRI® Dynamic and Postural Reflex Integration course TWICE and at least one other MNRI® Course.
- Completion of the MNRI NeuroStructural Integration course at least once before enrolling in the MNRI®IPET NeuroStructural Integration course.

Course Length: The course is a 24 hours course over a 3 day period plus 16 hrs of ON-LINE lecture.

Curriculum Design: The course curriculum consists of a combination of historical and theoretical lecture,

individual and group technique demonstration and applied practice, class discussion and required exams passed at the good to excellent rating.

Approved Continuing Education Course for: NA

All IPETS include:

1. Written test before class
2. Hands-On Exam during iPET class
3. Practical Hands-On Graded Exam following 64 conference hours

MNRI® Intensive Professional Educational Training (IPET) for NeuroStructural New format: All participants must be signed up and paid two (2) weeks prior to stated beginning date of the IPET. The basic theory part of this class will be streamed to the participant, once paid, 2 weeks before the scheduled class. There will be an exam that must be completed before the date of the 3 days of on-site training, including the hands-on techniques and strategies of the IPET.
