The Masgutova Method® is a set of programs focused on the restoration and maturation of primary movements, reflexes, coordination systems, skills for optimal performance of natural mechanisms, developmental processes, brain functioning, and sensory-motor integration. The Masgutova Method® is oriented on the stimulation of reflex patterns in order to awaken natural, genetic sensory-motor resources,

stress resilience and immune system, motor memory and sensory-motor integration. This achievement innately carries the implication of the fulfillment of all potentials within movement abilities, behavior and emotional regulation and learning skills.

The Mission of SMEI is to provide future Reflex NeuroIntegration professionals reliable knowledge and safe tools for the use of natural, genetic motor resources to facilitate successful neuro-sensory-motor development and joyful learning for their patients – children and adults in need for health improvement and optimizing their every day function, sports, arts, business and other.
